The Home Investment

We have received a communica tion, anonymously, bearing upon the subject of labor and commer-cial conditions of Blairmore and other towns of The Pass, and commenting among other things on the idea of local agents boosting for other towns all over this prov-ince and every other province, and practically forgetting altogether the interests of the town from which they expect to reap the bulk their livelihood.

We may enter any local office
and find the walls posted with
blue-prints of towns on the prairie or in the fenit regions of British Columbia, and windows decorated with scareheads to attract the eyes of the honest toiler to a supposed to-be means of investment that promises to return him a hundred fold. Hundreds of people have been attracted by those outside

propositions and some who a short time since were induced to invest their little savings in ten-to-twenty-mile-distant suburbs of Calgary and other cities are today rueing the day and are unable to provide amply for their homes and their children

We go to outside cities and find that agencies are boosting among others the towns of The Pass, and some outside capital (a small amount of course) is being invested in The Pass real estate through the medium of outside agencies.

Here in the towns of The Pass are offered better inducements for investment than ever a prairie town can boast of. We have not to depend upon the weather to ensure a good harvest; but right at our doors our natural resources are giving continual labor to all comers and the supply of raw material is sufficient to last a nousand years.

SITUATION:

Blairmore Brewery is situated in the TOWN of BLAIRMORE. A Town that is rapidly growing in importance as an industrial centre. From Blairmore it is possible to reach by wagon the Towns of CARBONDALE, COLEMAN. FRANK, HILLCREST, BELLEVUE, LILLE, PASSBURG, and several other small Mining Camps, all within a radius of about Four files, thus saving a great amount in rallway freight. The estimated population of these towns is about 12,000, and the nearest to the East about 100. This as anyone can see gives Blairmore Brewery a decided advantage over any of its competitors, for the trade of The Pass.
